

# Mistral Power Washing Equipment

## COLD WATER POWER WASHERS

A range of machines to suit every application. No gimmicks, no plastic, just solid quality backed by 40 years continuous production in the UK. Reliable, hard working machines designed to give you in excess of 20 years hard daily use, which is why all Mistral pumps have a 10 year warranty

- Housed in a fully enclosed steel cabinet, fitted with a hinged cover.
- Mounted on two solid 8" wheels with a swivelling locking castor for ease of movement.
- The rugged slow running 3 plunger pump (1450 rpm.) has a conventional crankshaft running in an oil bath and is fitted with ceramic pistons and stainless steel valves to ensure long life.
- Not to be confused with high speed, wobble plate pumps with compound cylinder heads, and plastic covers, leave these for the hobby market!

All Mistral pumps are able to suck from a convenient water source as well as connect directly to a tap, (providing local water authority laws allow) Chemical injection is controlled from the handgun to apply detergents, to remove grease or disinfectants and biocides, to sanitise buildings and machinery.

Technical Specification				
Model	Power	Flow	Voltage	Motor
<b>1500CN</b>	1450 psi./100 bar	13 lpm.	240v single phase	2.2KW
<b>2200CN</b>	2200 psi./150 bar	14 lpm.	415v three phase	4.0KW
<b>3000CN</b>	3000 psi./200 bar	15 lpm.	415v three phase	5.5KW
Dimensions				
Length: 680 mm Width: 530 mm Height: 480 mm Weight 70 kg.				

### Supplied with:

- Hand gun and 900 mm insulated lance
- 9 meters / 30 feet of high pressure hose fitted with quick release connections
